COSHH ASSESSMENT COSHH.1

PERSONAL PROTECTIVE EQUIPMENT

FIRE PRECAUTIONS

FIRST AID

NOTE

This Assessment must be used for the purposes of informing, instructing and training of operatives with regard to the precautions to be taken under the Control of Substances Hazardous to Health Regulations 2002 – COSHH.

Sub-Contractors must provide or be given a COSHH Assessment for each hazardous substance to be used. Assessments must be completed and signed before work starts.

Assessments must be available on site during operations for reference, inspection and proof of action being taken. The aims are to ensure as far as is practicable the health (now and in the future) of employees whilst using hazardous materials at work.
